

What is a minor?

An undergraduate minor at AUA is a coherent set of thematically related courses intended to broaden/complement a student's learning and experience.

Minors are optional. Undergraduate students may complete a minor(s) if they choose to do so. However, there is no requirement to do so.

In case the completion of a minor requires additional credits and/or additional time at AUA, the relevant procedures and policies will apply. There may be financial repercussions to choosing a minor.

Criteria for completion of a minor

No more than three credits can be counted from the major credits toward the minor.

No more than nine credits counted towards the minor may also satisfy a student's General Education requirements

At least 50% of courses counted within the minor must be taken at AUA.
